1890 -SUNSHINE AND MOON

LIGHT-1890. Another Civistmas and New Year's Annual, by "A Man," of the Rock Island Route, Now Read v

for Distribution.

The "Boys and Girls of America, and adults as well, who have road the instructive pages of "Watt Stephen" (1885), "Voltagal," (1886), "Petroleum, (1887(. "Coal and Coke," (1888), and "Irea and Steel," (1889), will be pleased to know that the latest and bright be shipped by water to New Orleans. est of the famous Rock Island series, thence by rail to Phenix, from which "Sunshine and Moonlight," (1890) now confidently awaits that which welcomed

each of its predecessors. "A Man" invites the attention of his inquisitive boy and girl visitors this year, to wonders in the heavens above, revealed by the telescope. He tells them all about the sun, moon, planets, satellites, fixed stars, comets, and their mevements, and explains the laws by which they are governed. The achievements of science in the field of astronomical research are presented in language so clear as to be easily under-Stood by all readers. The book fascinates, while it elevates and improves.

112 pages, profusely illustrated with choice engravings. Its covers are ornamented with appropriate designs, beautifully printed in colors. Practically, it is a Christmas gift to the patrons and friends of the Rock Island Ronde, and will be sent post-paid to any part of the world (as also previous issues, if desired) at the nominal price of teri (10) cents per copy. Write your address plainly, and inclose ten (10) cents in stam ps or coin, to Jno. Sebastinn, G. T. & P. A., Chicago.

How to Make Doughnuts.

As this is the time of year which doughnuts, the following recipe from the American Agriculturist, will be of special interest:

"This is the eld-fa hioned recipe for the doughnuts of our grandmothers. Bring two cups of milk to the boiling ! point, remove from the fire, add two when lukewarm, stir in one gill of yeast. If you have home-made yeast, so much in enough flour to make a soft dough. It should be just as soft as it can be bandled, and by ne means as stiff as bread. Cover again, and when very light turn out on o a floured pastry board and roll into a thin sheet, cut in pieces and mould into little round balls. Dust a cloth lightly with flour, Andrick, W lay the doughnuts on this, and let them stand half an hour. Then fry in a deep kettle of very hot fat, dropping | Carpenter, Henry Margaritch, Geo them in with the side that was 'up' on | Cate, John E the table 'down' in the fat, as the crust | Denny, G A that forms on them prevents them from rising if dropped in with this crust on top. In turning them ever, put the Grennan, Patrick Scott, J H. fork or spatula under them, and do not | Hester, Isaac pierce them. Drain on a sieve."

Frank Leglie's Popular Monthly fo January, 1890.

This is a "Holiday Number." as be fits the season. It has a new typo graphical dress throughout, and is, pic torially, probably the most elegant number of Frank Leslie's Popular Monthly ever issued. The colored frontispiece is "A Fair Masquerader. Lieutenant Beehler, the eminent naval officer, contributes a paper of thrilling interest, as well as of great historical value, on "The United States Navy and West India Piracy," in the eventful years 1821-25. It is profusely illustra ted, with portraits, and accurate drawings of the principal vessels in action. by Harrison Esstman. The article on Millet and his famous "Angelus," with engravings of that and others of his works, is timely and attractive. "An Old Post-road" conducts the reader along the historic banks of the Hudson. "Nan in the Goblin land" is a charmingly vivacious account of a girl's trip through the marvelous Yel lowstone region, of which some seductive pictures are given. The German Turner Associations of the United States are described by Dr. Metzner, one of There are numerous other articles o literary, romantic, or practical interest while the serial and short stories, poems and various departments are unusually full and varied.

The Christmas Holiday

The observance of Christmas in Prescott did not differ materially from that | the Silver King differences will seen be of previous yeas. The weather was settled will prove true. While the somewhat gloomy and marky, with public has no special direct interest in lewering clouds overhead and a sea of the matter, it is one that affects the mud underneath. The firemens' ball mining business generally, and a settlegiven on Tuesday evening was largely ment, in which the plaintiff and his atattended, and the treasury of the O. K. Hose Company was enriched by nearly | ceive what is just, would be hailed with \$250, which they will use in the pur- joy by our people. chase of a new cart. The hall was beautifully decorated, and being lighted by electric lights, presented a beautiful appearance. Dancing was indulged in until about two o'clock. An elegant supper was served at the Bellevue ho tel, of which reast turkey and the usual !

The Congregational Sunday school gave a Christmas tree, and the Methdist Sanday school a Christmas party on Tuesday evening. Christmas eve both of which were enjoyed by the

was not the fault of the small boy, pleasantly and quietly,

A Big Enterprise.

The Journal-Mines learns on good outhority that the Electric Placer Comany will shortly commence operations this county on an extensive scale-The plans which have been about consummated, will involve an expenditure of from \$250,000 to \$500,000. The ob. ject is to work rich placer ground in the vicinity of Rich Hill, in W eaver district. A third dam will be built in the H ssayampa river between the two dams of the Walnut Grove Water Storage company, from which power will be obtained to ran an electric plant, the electricity generated from which will be transmitted by wires to Weaver district. The machinery will cint it will be hauled by teams to its destination. Contracts for certain portions of the work have already been let. The engineer who will be in charge. and who accompanied Wells H. Bates, he promoter of the enter prise, to Prescote recently, is one of the most celebrated civil engineers in the world Active operations will be commenced immediately and the work pushed rapidly to completion.

Live Stock Notes.

Some interesting statistics have been compiled regarding the endurance of horses on the street car lines of St. Louis. The tabulated statement shows "Sunshine and Moonlight" comprises that the Mentana herse is in working condition six to ten months after horses from other portions of the country have been taken off the line as 'uscless." Next to Montana comes the Oregon animal. The lowest standard of endurance is accorded to the horses of the Middle States-for this particular kind of werk-and next to the lowest grade is the Texas and California plug. As a consequence, the Montana horse brings from \$5 to \$20 more money than other animals-in fact, the car men buy no other animals se long as good Montana herses are procurable.

> Cattle on ranges of northern Arisons are in prime condition. Feed continnes good, owing to the mildness of the

Homicide at Peach Springs.

Sheriff O'Neil received a telegram last night from Superintendent Beal of the Atlantic & Pacific railroad, saying heaping tablespoonfuls of butter, and I that U. W. Davis, the day operator at Peach Springs, had been shot and killed by O. L. Ambrose, the night operator, on the better; if you have not, dissolve | Christmas night. Immediately after half of a two-cent cake of compressed the shooting Ambrose left the telegraph reset in a gill of lukewarm water. Add office, where the tragedy occurred, but enough sifted flour to make a selt bat | was overtaken and arrested about one ter, cover and stand in a warm place mile down the track from the depot. over night. Next morning best three The killing was the result of a quarrel eggs until very light with a small cup between the two men. Davis was forof sugar; stir into the batter, and kneed | merry at Pre cott Junction, and is spoken of as a quiet and peaceable man.
